Who We Are

Footy Hills Surf Co. has roots that run deep in San Luis Obispo, it started when five college students lived on Foothill Blvd back in the 80's. One of them made a surf company as their Cal Poly senior project. After graduation all five began to work on the company full time. They made no profit for 5 years until Kelly Slater won his first ever World Surfing League championship on his custom Footy Hills board. Now the company offers surf boards, surf apparel, and surf goods. It has expanded its roots deeper and is now partered with many nonprofits and naturue restration organizations.
